

# Week 1: Introduction to HTML and CSS

**Task:** Create a simple static webpage with HTML and CSS.

**Mentors:**

Sarans Mishra - 7894293451

Sruti Nayak - 6370374143

Rudra Narayan Dash - 7978213646

Arpita Padhy - 7064294787

**Description:** Welcome to Week 1 of our web development journey! This week is all about embarking on the exciting journey of crafting your online presence through a static portfolio website. Your portfolio will serve as your digital resume, showcasing your skills, accomplishments, and personality to the world.

**Your Portfolio's Content:** Your portfolio website should introduce yourself, provide details about your background, skills, and experiences, and showcase your best projects. Include sections like an "About Me" page, a portfolio of projects, your resume, and contact information. Don't forget to make it unique and reflective of your personality.

**(Resources and Inspiration for tasks below)**

## Resources:

### Note

YouTube tutorials are the first to pop up in our minds when it comes to learning something but due to time constraints videos only show you what worked for them in a particular scenario and not the whole thing. Therefore, while watching tutorials is well and good, make sure you stay in touch with the documentation as well.

<https://www.w3schools.com> (Simple and to the point)

<https://developer.mozilla.org/en-US/> (Much more extensive and detailed. Learn the basics for now if you are a beginner.)

### HTML Tutorial:

<https://www.youtube.com/watch?v=V8vizNQKtx0>

<https://www.youtube.com/watch?v=HcOc7P5BMi4>

### CSS Tutorial:

<https://css-tricks.com/>

<https://www.youtube.com/watch?v=ESnrn1kAD4E>

### Text editor:

 **Install VS Code In 2 Minutes | Windows & Mac | English**

<https://www.codecademy.com/article/visual-studio-code>

**Browser for testing:** Use browsers with good web development tools like Google Chrome or Mozilla Firefox.

*You don't have to watch the entire video if you already know the basics. Get a refresher on basics or use the timestamps to navigate to the parts you need.*

### **Inspirations for your task:**
